

WELCOME TO

KAVA GARDEN

DO GOOD THINGS.

WHAT IS KAVA?

Kava also known as Piper Methysticum, is a traditional drink made from the roots of the Kava plant. Native to the South Pacific, Kava has been consumed for centuries for its relaxing and calming properties.

Our Kava is made using the highest quality Kava roots, and prepared in the traditional method, ensuring an authentic experience.

Kava has a unique taste and aroma that is often described as earthy and slightly bitter. It is known for its calming and soothing effects, making it a popular choice for those looking to relax.

At Kava Garden, we serve Kava in its traditional form, as well as in a variety of unique and creative cocktails. Our knowledgeable staff can guide you through our menu and help you select the perfect Kava drink for your taste and mood.

WHAT IS KRATOM?

Kratom, also known as Mitragyna Speciosa, is a tropical tree native to Southeast Asia. The leaves of the Kratom tree are dried, powdered, and mixed into your favorite beverage, or enjoyed as a traditional brewed tea.

Known for its ability to provide a natural energy boost, relieve pain, and promote relaxation, Kratom has been used for centuries in traditional medicine practices. At Kava Garden, we are proud to offer this ancient plant as an all natural way to enhance sociability and inspire creativity.
